

- Submission / approval of nominations for IPGK
- Starting from 01.09.2026
1. Nominations are approved at the hour they are submitted.

2. The hourly nomination must correspond to the available free capacity (in the case of injection, free space in the storage facility / in the case of withdrawal, gas)!

3. Nominations must be submitted in accordance with the selected IPGK product.

4. If a nomination is not submitted to the system by 3:00 PM on D-1, then 0 is confirmed!

5. It is not possible to RE-nominate previous hour's!

6. In the XML messages, you have to include both directions for each hour, otherwise Platform will respond with an error!

7. For changing direction, you need to make sure that in each hour in the chosen direction there is a non-zero value.
