KEY FIGURES

INČUKALNS UGS 2020

- Season from May 1 to Oct 14
- Technical capacity 21,525 TWh
- Injection capacity
 - May 1 - 2 31,5 GWh
 - May 3 52,5
 - May 4 63,0
 - May 5 - 12 73,0
 - May 13 - 15 84,0
 - May 13 - June 18 105,0
 - June 19 + 126,0
 - Mid July + ???

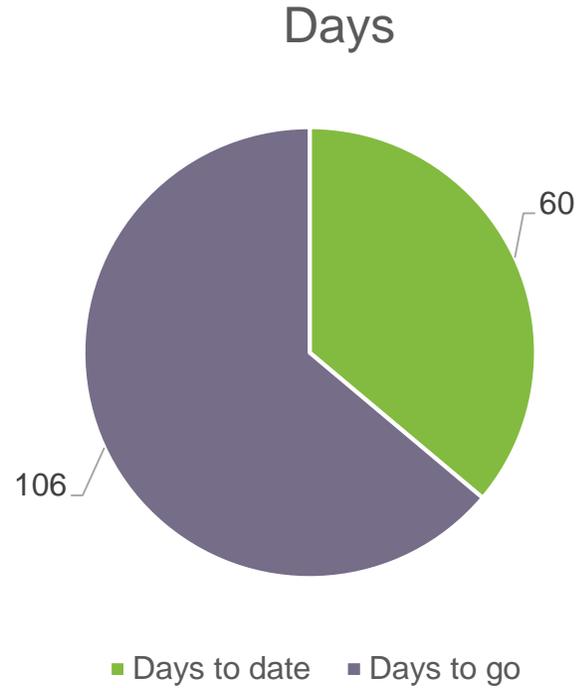

FORECAST

KEY INFLUENCING FACTORS

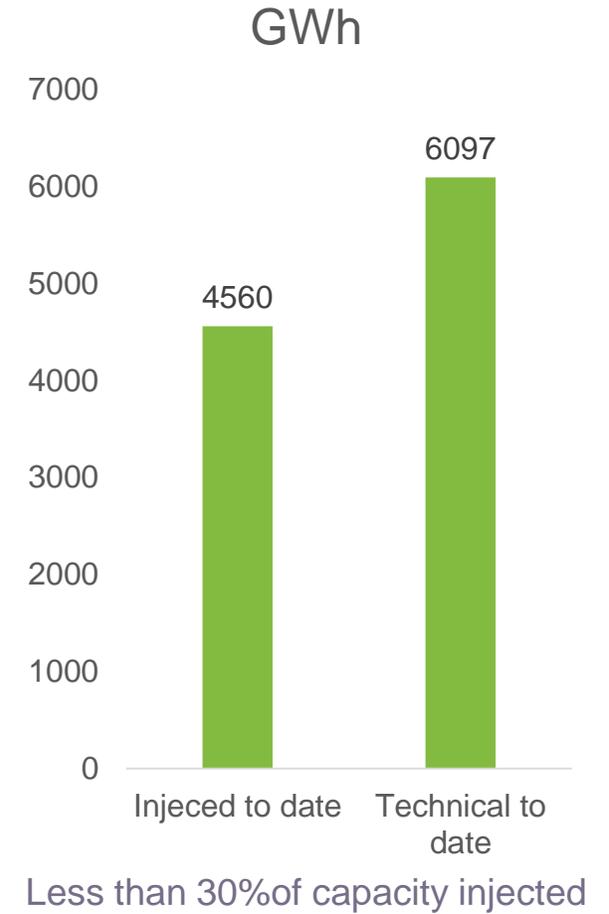

- Entry points in LV-EE zone fully booked (except Kiemenai in September)
- Domestic consumption LV and EE
- Balticconnector exit
- Maintenance works

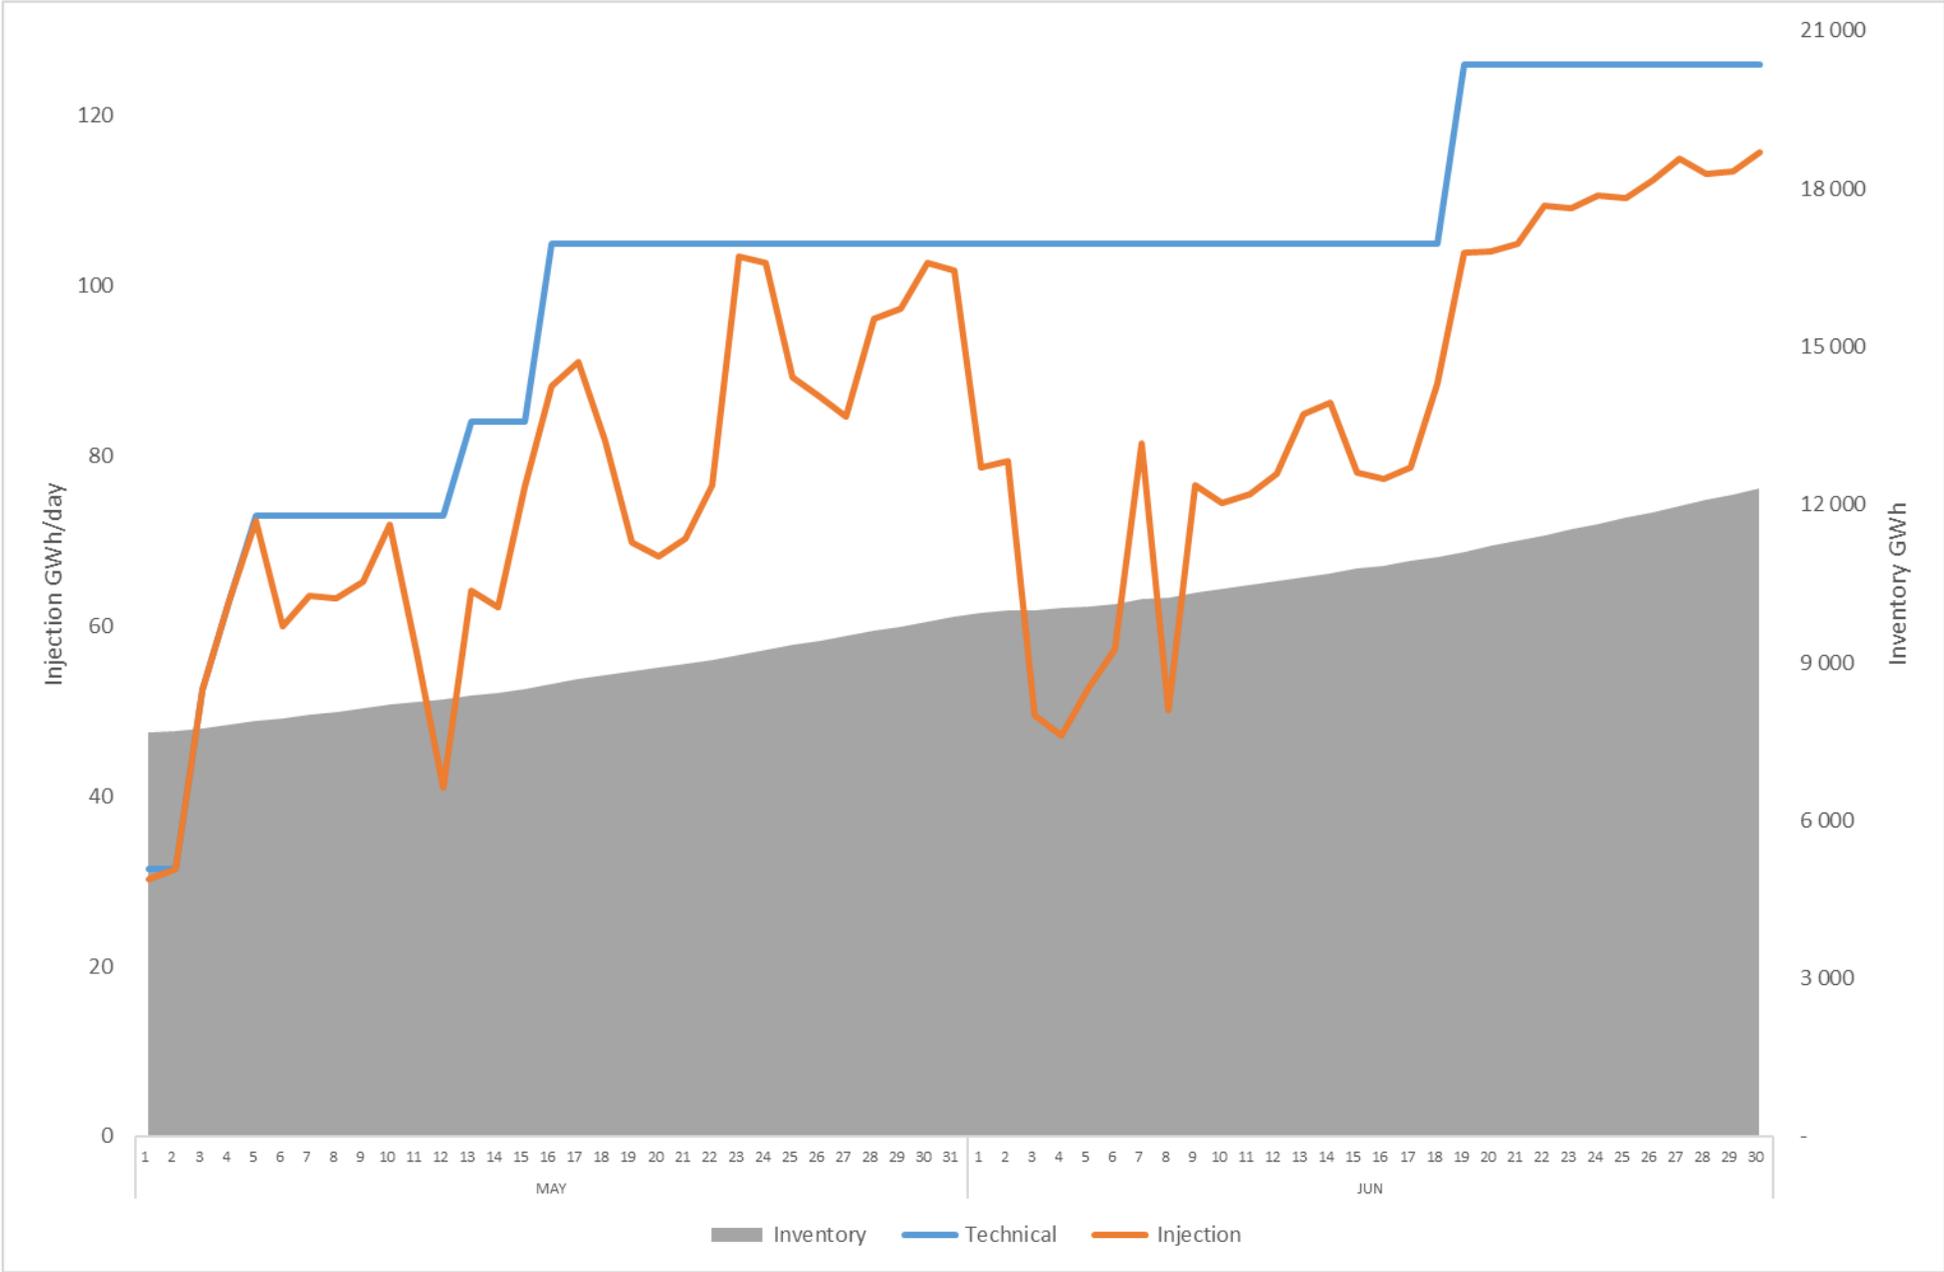

SITUATION

TIME AND INJECTION TO DATE

36% of time elapsed

The image features a blurred background of industrial machinery, likely a power plant or factory. The machinery is composed of various metal parts, pipes, and structures, with a color palette dominated by greys, blues, and reds. A prominent vertical red pipe runs down the right side of the frame. In the center, the text "THANK YOU!" is displayed in a bold, white, sans-serif font. The overall scene is out of focus, creating a sense of depth and complexity in the industrial environment.

THANK YOU!
